Cap Vert Energie and Natixis Close Financing of Photovoltaic Projects in Chile

🕒 27-12-2019

Cap Vert Energie, a French producer of renewable energy, has secured refinancing of a credit agreement with Banco Security, for the acquisition, construction and operation of six photovoltaic projects in Chile. All projects are small distributed generation projects (PMGDs). The \$96m deal closed November 8th.

Natixis' NY branch served as senior lender, and is set to finance the acquisition of the photovoltaic project, named Trichahue, which is owned by Solarpack Chile, as well as the future acquisition of other projects. The transaction includes a VAT financing granted by Banco Security.

Guerrero Olivos, Orrick Herrington & Sutcliffe served as legal counsel to Cap Vert Energie, while Milbank and Garrigues acted as counsel to Natixis.
