Guerrero Olivos advised Matrix Renewables (Spain) S.L.U. and CMS Carey & Allende advised Verano Capital Holding on the transaction

Matrix Renewables, a global independent renewables power producer, acquired a 154 MW portfolio in Chile from US-founded developer Verano Capital. The projects, which range in size from 3 to 9 MWac, are being developed under the country's PMGD Program.

The portfolio consists of twenty-five PMGD solar projects with a total capacity of 154 MW, located in 4 different regions of Chile. Part of the portfolio is already operational, in construction or breaking ground in the coming months.

This acquisition consolidates Matrix Renewables' position in the exciting and fast growing Chilean PMGD distributed solar market, where it now controls over 330 MW under operation, in construction, or at a late stage of development.

Matrix Renewables is a renewable energy platform created and backed by global alternative asset manager TPG and its \$5 billion impact investing platform The Rise Fund. Matrix Renewables has a 1.2GW existing portfolio and is focussed on growth across Europe, the United States and Latin America.

Guerrero Olivos advised Matrix Renewables (Spain) S.L.U. with Juan Enrique Allard (Picture), Clemente Pérez, César Gálvez Tobar, Josefina Sánchez, Antonia Ibarra, Andrea Olea M., Francisca Martínez, Antonia Namur, Rosario Becker S., Benjamín Sims and Jerónimo Zabala Peña.

CMS Carey & Allende advised Verano Capital Holding with Fernando de Cárcer and Sebastián Barros Eyzaguirre.
